

Cyber Investigation 100 –

Identifying and Seizing Electronic Evidence (ISEE)

The ISEE course is designed to instruct participants in the basics of recognizing potential sources of electronic evidence, preparing them to respond to an electronic crime scene, and to safely and methodically preserve and collect items of evidentiary value to be used in court proceedings. The course will consist of six hours of instruction.

This particular course utilizes advanced adult learning skills and takes the participants through a process and methodology that can be presented either in a basic recruit academy atmosphere or an in-service training situation.
