Keven Hendricks
Adjunct Instructor

Keven Hendricks is an adjunct instructor for the NW3C. He began his law enforcement career in 2007, and has previously served as a task force officer for FBI and DEA cyber crime task forces during his tenure. He is a contributing author with the FBI Law Enforcement Bulletin, American Police Beat, and The Blue Magazine and is recognized as a Subject Matter Expert in dark web investigations by the Department of Defense - DTIC, contributing to analytic journals and technical reports. His expertise has been quoted in The Washington Post, NPR, The Economist, NY Magazine - Intelligencer, and Wired. He speaks at conferences all over the world and instructs to law enforcement in both the United States and internationally.

He is a Certified Cyber Crime Examiner (3CE) and Certified Cyber Crime Investigator (3CI) by NW3C, a Certified Cryptocurrency Investigator through the Blockchain Intelligence Group, and a Certified Digital Asset Professional through the Global Digital Asset & Cryptocurrency Alliance. He is the founder of the Ubivis Project – StopDarkwebDrugs.com and currently sits on the advisory council for the Anti-Human Trafficking Intelligence Initiative.
