ACTIVITY SUMMARY // WHAT WE DO

NW3C delivers no-cost training and technical assistance to state, local, tribal, and territorial law enforcement agencies across the U.S., helping them protect their communities. By focusing on underserved agencies with limited funding, NW3C provides essential support in Cyber Investigations, Digital Forensics, Economic Crimes, and Open Source Investigations through expert training, advanced tools, and vital resources.

COMPANY OVERVIEW // WHO WE ARE

NW3C is a congressionally authorized, nonprofit 501(c)(3) organization with more than 47 years of experience supporting state, local, tribal, and territorial (SLTT) law enforcement. NW3C delivers high-quality training, tools, technical assistance, and resources nationwide. Through continuous innovation and growth, NW3C strengthens the prevention, investigation, and prosecution of economic and high-tech crime, managing 14 DOJ-funded initiatives and additional public- and private-sector partnerships.

"Without NW3C providing free online classes, small agencies such as ours, with limited training funds, would not have the opportunity for the analyst to gain the knowledge and resources necessary to grow and develop. Thank you for continuing to provide such valuable opportunities."

- Marion, Ohio

KEY AREAS OF TRAINING

INTERNET CRIMES AGAINST CHILDREN

61 ICAC TASK FORCES

NW3C is a primary training and technical assistance provider for the national network of 61 ICAC Task Forces representing more than 6,200 federal, state and local law enforcement and prosecutorial agencies throughout the country.

"NW3C training has given me the skills to locally image laptop and desktop computers instead of sending them to a neighboring lab. This has increased my efficiency in clearing cases involving fraud, sexual assaults and crimes against children."

- Vidor, Texas

TECHNICAL ASSISTANCE

Offering hands-on investigative support.

304 TECH ASSISTS

"From knowledge gained from NW3C training, I assisted with a drug trafficking case focused on a street gang transporting and smuggling from Mexico into the United States. I have found ways in using the tools in these courses to help me through investigations within my department."

- Lexington, Kentucky
