

Course Description

**CS100
ICN-WB**

Introduction to Computer Networks

Cybersecurity

Online course

3 hours

**Prerequisite:
None**

This course introduces fundamental concepts and terminology related to computer networks. Topics include the importance of computer networks, types of computer networks, common network components, network topologies and media, the OSI and TCP/IP models of communication, and IP addressing. The course also addresses law enforcement's role in cybersecurity within the current landscape of digital crime.
