

Course Description

**DF099
HDS-WB**

How Computers Work & Store Data

**Digital
Forensics**

Online course

3 hours

**Prerequisite:
None**

The first module of this course covers fundamentals such as recognizing computer components and their functions, accessing computer firmware, and the startup and shutdown processes. The second module covers how a hard disk drive works, how data is converted into digital information, how to calculate the storage capacity of a device, partitioning and how that is used for storage, and how a solid state hard drive functions.

This course serves as a prerequisite for **B DFA-Acquisition** but can also be completed as a stand-alone course.
