

Course Description

**DF100
BDFA-Seizure**

Basic Digital Forensic Analysis: Seizure

**Digital
Forensics**

**Classroom
course**

1 day

**Prerequisite:
None**

This course introduces the information and techniques law enforcement personnel need to safely and methodically collect and preserve digital evidence at a crime scene. Topics include recognizing potential sources of digital evidence; planning and executing a digital evidence-based seizure; and the preservation, packaging, documentation, and transfer of digital evidence.

Prepare. Prepare to respond to an incident or crime scene where digital evidence may be present.

Identify. Learn how to identify relevant sources of digital evidence in an ever-evolving landscape.

Collect. Learn the proper methods of digital evidence collection.

Preserve. Build upon the three previous principles to ensure valid and legal preservation of digital evidence can occur.
