

Course Description

DF102 BDFA-Previewing	Basic Digital Forensic Analysis: Previewing
Digital Forensics	<p>This course provides the fundamental knowledge and skills necessary to preview the most commonly-encountered forms of digital evidence. The course covers Windows-based and macOS-based computers, mobile devices, and removable storage media. In a combination of lecture, discussion, and practical exercises; instructors introduce the previewing process, legal considerations, live previewing, and dead-box previewing. Students gain hands-on experience with free and commercial third-party previewing tools that are in current use by practitioners in the field.</p>
Classroom course	
2 days	
Prerequisites: None
