

# Course Description

<b>DF103 BDFA-Acquisition</b>	<b>Basic Digital Forensic Analysis: Acquisition</b>
<b>Digital Forensics</b>	<p>This course provides students with the fundamental knowledge and skills required to acquire images in a forensically-sound manner from Windows-based and macOS-based computers, as well as mobile devices. Presentations and hands-on practical exercises cover topics including the digital forensic process, hardware and software write blockers, forensic image formats, live imaging, and multiple forensic acquisition methods. Students gain hands-on experience with free and commercial third-party imaging tools that are currently used by practitioners in the field.</p>
<b>Classroom course</b>	
<b>2 days</b>	
<b>Prerequisites: None</b>
