

John Sedoski
High-Tech Crime Specialist

John Sedoski is High-Tech Crime Specialist with the National White Collar Crime Center (NW3C). John joined NW3C in the fall of 2010 as a Computer Crimes Specialist and has served as the Special Projects Coordinator.

John has provided thousands of hours of training to numerous state, local, and federal law enforcement personnel in data recovery and analysis. Training topics range from basic identifying and seizing electronic evidence, analysis of artifacts Operating Systems, and to an ever-evolving field of Social Media investigations. John is also a Certified Forensic Computer Examiner (CFCE) and has served on his local High Technology Crime Investigation Association (HTCIA) board.

John has provided technical assistance to law enforcement personnel on computer/cyber forensic topics, lead and participated in curriculum development for NW3C classes by researching course topics, preparing presentations and class materials, and developing hands-on projects. John has also participated in the research and validation of software programs developed by NW3C and conducted original research on forensic topics relating to the application of computer forensic methods.

John earned a B.S. from West Virginia University, majoring in Computer and Electrical Engineering. During this time, he worked in the West Virginia State Police Digital Forensic Lab where he was able to provide aid by using his education and applying it to the field of computer forensics.
